

Carson Slater, PhD Student

Graduate Research Assistant
Department of Statistical Science
Baylor University

+1.480.320.8898 carsonslater7@gmail.com <https://carsonslater.com>

March 2026

Summary

Motivated graduate student seeking consulting opportunities. Aspiring applied statistician who loves to use statistical methods to empower people with insights for good stewardship.

Education

Baylor University

PhD Statistical Science	2024–Pending
M.S. Statistical Science	2023–2024

Wheaton College

B.S. Applied Mathematics with Statistics	2019–2023
--	-----------

Employment

Baylor University

Research Assistant	2024–Present
Graduate Assistant	2023–2024

Wheaton College

Mathematics Teaching Assistant	2022–2023
--------------------------------	-----------

Peer-Reviewed Articles

Sayes. 2025. “Assessing the Effects of Surface-Stabilized Zero-Valent Iron Nanoparticles on Diverse Bacteria Species Using Complementary Statistical Models.” *Journal of Functional Biomaterials* 16 (3). <https://doi.org/10.3390/jfb16030113>.

Swindell, Jonathan E., Carson Slater, Samuel Hussey, Charles Baylis, and Robert J. Marks. 2024. “Assessing Interference with Regression Analysis Techniques.” In *2024 IEEE Texas Symposium on*

Wireless and Microwave Circuits and Systems (WMCS), 1–6. <https://doi.org/10.1109/WMCS62019.2024.10619025>.

Hering, Amanda S., Douglas Nychka, Luke Durell, Carson Slater, Michael Poor, Greg Hamerly, and Tzahi Y. Cath. 2024. “Mo(Wa)²TER Introduction to Data Science Course Material.” Harvard Dataverse. <https://doi.org/10.7910/DVN/BZJW2E>.

Projects

Mo(Wa)²TER Introduction to Data Science Course Material [Harvard Dataverse](#)

- Edited and compiled material with Dr. Mandy Hering on her contributions to the National Science Foundation Harnessing the Data Revolution: Data Science Corps project (Grant no. #1924146).

Forecasting Demand With Generalized Additive Models [Link to Github](#)

- Built time-series forecasting models to predict quantity-demanded for fast-moving consumer goods in Indonesia.
- Presented poster at University of Illinois – Chicago’s 2022 Undergraduate Mathematics Symposium and Wheaton College’s 2022 Homecoming STEM Poster Session.

Understanding and Modeling Predictors to Earned Run Average in Modern Major League Baseball

- Conducted variable selection using predictors from the Lahman baseball database to model Earned Run Average using regression analysis. Used the same predictors to build a single-layer neural network and a radial support vector regression model in R/RStudio.

Skills

Software Tools: Docker, RStudio, Git/Github, reveal.js, Positron.

Software Languages: R, JAGS/Stan, Python, C, SAS, Stata, SQL, zsh, LaTeX, JavaScript, CSS, HTML.

Relevant Coursework: Bayesian Methods in Statistics, Survival Analysis, Time Series, Theory of Statistics, Statistical Methods, Computational Statistics, Numerical Analysis, Linear Algebra for Data Analysis, Mathematical Statistics, Machine Learning, Probability Theory, Real Analysis, Intensive Introduction to Computer Science (*Harvard*), Econometrics, Economics of Labor and Poverty.

Honors & Awards

2019 - **Varsity Baseball Player** — *Wheaton College Athletics, NCAA* — Practiced baseball six days a week for multiple hours and played over forty-games during the spring semester.

2019 **Christian Character Award** — *Valley Christian High School, Chandler AZ* — Exemplified Christ-like character, lived above reproach, and exhibited a passion for the gospel.

Service & Volunteer

Wheaton Academy Center for Lifelong Learning

Academic Coach

2023–2023

Duke/North Carolina State University Summer Institute for Biostatistics

Participant

2022–2022

Křesťanská Akademie Mladých

Volunteer Intern

2023–2023
